The Board meets with representatives of Sunshine Sign Company regarding the proposed signage that the Town would like to purchase with the funds received from the Business Retention Grant.

The parties review a photographic slideshow of existing Millville signage and various entrances into Town. McCutcheon reviewed a list of attractions in Town provided by the Historical Commission.

Glispin advised that the Town needs to determine if they want to purchase 'way finding signage' or 'identity signage' or both, and further does the Town want to look at the architectural element of the sign as well as durability. The cost of the signs greatly depends on these issues.

It was decided that the sign representatives will drive throughout Town with members of the Board to discuss the various sign options and placement locations.

Respectfully Submitted,

Helen M. Coffin
