

Regulations of the Millville Board of Health Sale of Tobacco Products

A. Statement of Purpose:

Whereas there exists conclusive evidence that tobacco smoke causes cancer, respiratory and cardiac diseases, negative birth outcomes, irritations to the eyes, nose and throat; and whereas more than eighty percent of all smokers begin smoking before the age of eighteen years (Centers for Disease Control and Prevention, "Youth Surveillance - United States 2000," 50 MMWR 1 (Nov. 2000); and whereas nationally in 2000, sixty nine percent of middle school age children who smoke at least once a month were not asked to show proof of age when purchasing cigarettes (Id.); and whereas the U.S. Department of Health and Human Services has concluded that nicotine is as addictive as cocaine or heroin; and whereas despite state laws prohibiting the sale of tobacco products to minors, access by minors to tobacco products is a major problem; now, therefore it is the intention of the Millville Board of Health to curtail the access of tobacco products by minors.
