### **BOH Shed:**

BOH Admin had spoke to Pat Scanlon the Fluorescent Bulb Program Coordinator and had stated that the Board wanted to cease using the program due to the shed being located off Town Hall property due to its move. The Board did not have the resources to maintain the shed off-site or move the shed to the new location at 290 Main Street. Pat Scanlon expressed concern about the Board not keeping the program as it is free to the Town and provides a way for the residents to dispose of Mercury and Fluorescent Bulbs. The BOH Admin had stated that it was mostly due to the location of the shed at the old Town Hall. Pat Scanlon reached out to the BOH Admin at a later point and found way to relocate the shed free of charge to the Town.

C. Robinson motioned to keep the program running with the shed located at the new Town Hall – 290 Main Street. D. Ciccarelli seconded the motion – motion passed.

The Board would like the BOH Admin to speak with the Town Administrator about the new location of the shed. Board would like spare keys made for the shed.
