

Critical Home Repair Program

A home preservation program that provides needed interior and exterior repairs for low-income homeowners, so that they may maintain a safe, decent, and affordable place to live. This program focuses on safety, security, accessibility, weatherization, and keeping houses up to city codes.

The Critical Home Repair Program is to maintain affordable houses, designed to provide a hand up, not a hand out.

With a max of up to \$15,000, projects with payments will cover, replacing roofs and gutters, installing new vinyl siding, replacing driveway and sidewalk, replacing porch and steps, installing an energy-efficient furnace and/or water heater, upgrading electrical service, remodel, accessibility additions and many more repairs...
